

HuFaMo 2026 Workshop Program (MODELS 2026)

Time	Activity
14:30 - 15:45	Opening, Keynote and Human Factors in Modeling Language Design
14:30 – 14:40	Welcome & Opening Remarks by workshop chairs
	Session I: Human Factors in Modeling Language Design Chair: Silvia Abrahao
14:40 – 15:10	Keynote speech by Michel Chaudron (TBD)
15:10 – 15:30	From Complex Ecosystems to Understandable Models – Evaluating a Domain-Specific Modeling Language for Digital Ecosystem Governance <i>by Taija Kolehmainen, Gabriella Laatikainen, Juha-Pekka Tolvanen and Tommi Mikkonen</i>
15:30 – 15:45	Discussion: When Is a Modeling Language Truly Understandable?
15:45 – 16:15	Coffee Break
16:15-17:30	Session II: Human–Tool Interaction in Modeling Chair: Shalini Chakraborty
16:15 – 16:35	When Layout Matters: Characterizing Layout-Sensitive Notations and Their Cognitive Trade-offs <i>by Miriam Boss, Friedrich Schadow, Ralf Reussner and Kathrin Gerling</i>
16:35 – 16:50	Do Not Disturb — Proposing Approaches Towards Motivated Human-in-the-Loop for Less Disruptive Cross-Domain Interactive Repair <i>by Antonio Bucchiarone, Antonio Cicchetti, Juri Di Rocco and Alfonso Pierantonio</i>
16:50–17:00	Discussion: How Much Should the Tool Decide for Us?
17:00–17:25	Panel: Human Factors in Modeling in the AI Era: Challenges and Research Directions. Chair: Miguel Goulão Panelists: Tim C. Lethbridge, Vasco Amaral, and Pedro J. Molina
17:25–17:30	Workshop Wrap-up
